- *If a pregnant woman does not meet the traditional income standard, her eligibility will be assessed using a household size increased by one, or the number of expected unborn(s) during the pregnancy in question. The unborn(s) will not be added to the household size when a household is income eligible without counting the unborn(s).*
- *In situations where the household size has been increased for a pregnant woman, the same increased household size will also be used for any of her categorically eligible family members.*
- *When determining household size, students away at college may be counted.*
- *Joint custody – household determination will be based on caregiver present at time of certification.*
